## We Guarantee Re-Conditioned Model "T" Fords

Usually, when a person buys a new Ford from us, he has by no means exhausted the transportation in his old car. We have several bargains in unused mileage in our showroom right now, awaiting second owners. Naturally, the prices are so low that you could easily afford to have one—possibly for that second car, which will solve your family's transportation problem.

Model "T" Fords are thoroughly re-conditioned and guaranteed. We also have other makes of cars for second owners—priced according to the unused service in them.

Regarding our used-car prices, remember this: There is no "padding" to care for excessive trade-in allowances, for the price of the new Ford is so low—so close to the cost of production and selling that there is no leeway for unreasonable trade-in concessions. When you buy a used car from us you pay just what it is worth, and no more. We would hardly care to risk our reputation and good-will by following any other policy.

## IN AND AROUND THE CLUB

Arrangements are about complete for the fight card on Saturday, and everything points to a first class program and a record attendance.

Billy Drain is reported by "Jack" to be in "the pink" and Rathwell is finishing off his training with the veteran Tommy White.

Our old friend Jimmie Cameron will meet a new man in Pozzi. Quite a good name but believe me there will be no presentation of flowers unless it be "cauliflower."

The winner of the Rathwell-Drain argument will meet Skeriton about the middle of September, and the fans will have a chance then to form an opinion of how this Skeriton will fare against the clever Cowie in Drumheller.

A rumor reached us indirectly the other day that this organization was under the dominance of another organization. We wish to state here and now that the persons making this assertion know otherwise, and that the Canadian Legion is not now and never will be under the wing of any political, religious, or any other body in Canada or elsewhere. This organization was formed solely for the purpose of seeing that the widows and orphans of men who had lost their lives overseas, were being adequately provided for, and that disabled men were getting justice and a chance to live independent of charity. Sixty-five per cent. of our money goes towards keeping a fighting force in Canada to see that this is done. Do we serve a useful purpose or do we not? We hear the old cry "Does not the Government do this?" They do look after these cases when they have to but not before, and we have to fight every inch of the way in most cases. We have no person from membership who has in any way contributed to our success in the Great War, and whose sympathy is with the Returned Soldier and his problems. Do you get me Steve?

Willie, exclaimed the Old Lady: "Didn't I say I would whip you if you put another rubber band on this?" "Yes, but it ain't me this time; it's the old man sleeping again with his shoes off."

Boys, do you remember the Little Frenchy we used to call "Bad Tooth" because nobody but the dentist could take her out? They were the days. Well, how would you like to visit the Big Smoke again, and Paris, Brussels and all the other hang-outs? Our Dominion convention is liable to be held in London next year, and the boys would like to charter a boat for themselves. How would you like to be in on the party? Don't all speak at once please?

Little Johnny says: Our cow gave no milk, so we sold him. If Noah had swatted the two flies he took in the Ark wouldn't it be a swell world today?

This world holds some good fellows after all. The other day one of the boys came in and repaid us for relief given him in some time ago.

Now (to youngster just put to bed) "Dad what are you crying for?" Infant: "I wanna drink." Dad: "So do I. Go to sleep."

Well that's all for this week. Will look for you on Saturday night at the old stand, and help you eat your peanuts.

Miss Dorothy Ottowell has as her guest, Miss Ellie Key of Calgary.

## SCHOOL OPENING SEPT. 3

Although not definitely fixed, it is expected that Vulcan schools will be opened on the first Monday or Tuesday in September. Mr. White, assistant principal; and Miss Holmes will be added to the high school staff, and the public school staff will be unchanged.

Unfortunately Mr. Irving, principal and Miss Cameron are both in hospital but it is expected that they will be available on opening day or very shortly afterwards.

## SATURDAY'S CARD AT MUNICIPAL ARENA

The headliner of this card on Saturday between Elmer Rathwell of Medicine Hat and Billy Drain of Winnipeg is looked to furnish one of the best contests ever staged in the province and one that may have quite a bearing on the ultimate destination of the lightweight championship of Western Canada. Mel Cowie of Calgary and Vic Skeriton of Regina both claim the title, but before that date the winner of the Rathwell-Drain argument here will meet Skeriton in Vulcan so that anything may happen. Unfortunately the local promoters could not get Cowie to meet Skeriton here as he had already contracted with Joe Grim not to fight until after he met Skeriton at the mining town. However Skeriton has been practically fixed up to fight here four days before he appears in Drumheller, with the championship at stake and forfeits to be posted covering the weight. Local fans can thus realize just what class of contest they will see on Saturday night.

In the semi-windup Ronnie Daines will meet our old friend and ever popular Louis Kwiczak. Daines is reported to be improving beyond all recognition but Louis will make him step all the way.

Jimmie Cameron will meet a new comer to this province in the person of Pozzi. We all know Jimmie to be a good, honest scrapper, who always does his best under all circumstances. Pozzi appears to be O.K. and has quite a reputation. The other two preliminaries will be filled by boys who have not appeared here on any previous occasion, but the names are not yet to hand. The fans may rest assured however that the calibre of this card will not have to take a second place to any card ever put on in this province, and the promoters believe that they have provided more honest to goodness contests than anything outside. If indications are anything to go by there should be a record attendance with ringside seats at a premium.

## BAD FIRE AT LOMOND

Lomond's business section was threatened Tuesday by a fire which destroyed four business buildings, piling up losses that will amount to \$30,000. The sufferer in the fire which broke out about 9:30 in the Hedge Hardware Company, J. E. Crum second-hand dealer, and the town hall of Lomond.

As far as can be learned there was little insurance carried and no cause for the fire has been given although it is said to have originated in the implement shed. The blaze spread rapidly, taking the resources of the town chemical, and the bucket brigade which battled the flames for hours to prevent it from spreading.

The whole population of Travers helped fight the flames.

The Federal Grain Elevator at Stavelly, with a capacity of 35,000 bushels was completely destroyed by fire the same night. The smoke was discovered around 7:30 when smoke was seen coming from the top of the building and it was immediately discovered that the whole building was ablaze inside.

## LOCAL ITEMS

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store Sat. August the 31st. Make appointments at Drug Store or with Mrs. Carson & Burke.

Mr. T. W. Stacey, manager of the Beaver Lumber Co., Calgary, is a business visitor in Vulcan.

Mr. and Mrs. A. L. Cross and family of Kelowna, B.C. who have been visiting at the home of Mr. and Mrs. F. T. Graham returned home on Tuesday of last week. They made the trip by auto. Mr. Cross is a brother of Mrs. Graham.

Leishman Clothes representative, Mr. Art Turner, will be at Pete McAskie's Clothing Store on Tuesday, September 3. Give us a call. Whether you buy or not we want you to see the new models and clothes for fall.

Services will be held as usual next Sunday, September 1st. Morning service at 10:30, Sunday school at 11:30. There will be the usual evangelistic service at 8 in the evening. You are invited to attend these services.

Church of Christ Notes

## Alberta Women's Institutes Conference Held at Vulcan

Little Bow Constituency Holds Eleventh Annual Gathering at United Church

The eleventh annual Conference of the Little Bow Constituency of the Alberta Women's Institutes was held in the United Church at Vulcan on Friday, August 23rd, 1929.

Mrs. A. T. Martin of Vulcan, Constituency Convenor; Mrs. Alecock, District Director, and Mrs. McMann, Secretary, were the officers present.

The reading of the minutes of 1928 conference and financial statement were read and as there were no corrections, stood approved.

Vulcan W. I. branch report having a very busy year, raising some \$700, using most of the money to great advantage. Being responsible for the entertainment of the conference being held in Vulcan 1929. Mrs. Jack Marshall presented the report and moved its adoption, seconded by Mrs. Schenck. Carried.

Redlandy W. I. reported a very busy year. Donated \$25.00 to Vulcan Rest Room and presented a nice sum of money to the caretaker as a gift of appreciation for her splendid services. Besides many other good causes. Moved by Mrs. McKinnon and seconded by Mrs. Doane, the adoption of this report. Carried.

Eastway W. I.'s delegate was unable to be present, so sent their report. Mentioning great activities. One to endorse the form on Rural Health Units. Report progress in several branches of W. I. work. Mrs. McMann moved and Mrs. McKinnon seconded that this report be adopted. Carried.

Mrs. A. J. Kennedy gave many valuable suggestions on training of children of pre school age.

Mrs. Sisson of Champion gave a very nice piano selection.

Champion W. I. reported great community enterprises; one being the investment of \$250 in community hall shares at \$25 per share. Great regrets were expressed of the passing away of the late Mrs. G. F. Smith. Moved by Mrs. Bastin, seconded by Mrs. Anderson this report be adopted. Carried.

Mrs. D. H. Galbraith and Mrs. Beaubier were appointed the committee to look after any resolution to be presented to the conference.

Reid Hill W. I. reports great community enterprises. Moved by Mrs. Hartman, seconded by Mrs. Bowie, this report be adopted. Carried.

Mrs. Galbraith gave several items discussed by our Alberta Legislature. Kirkcaldy W. I. report having a demonstration on making pretty vases from odd jars which proved very successful. Essays written on our W. I. Creed. Moved by Mrs. McMann, seconded by Mrs. Bowie, report be adopted. Carried.

Golden Rule W. I. report excellent progress in the several branches of W. I. work. Moved by Mrs. Galbraith, this report be adopted. Carried.

Garden Prairie W. I. report a very active year. Demonstration in basketry very profitable, and are repeating the same this year in advanced work. Moved by Mrs. McMann, seconded by Mrs. Peterson this report be adopted. Carried.

Good Deeds W. I. had a sewing demonstration and held their usual competition for the best school window boxes.

Morning session adjourned for

## REID HILL SCHOOL FAIR COMMUNITY HALL, SEP. 19

Will the parents and pupils please note that the standard prize list in the agriculture bulletin will be used this year. Pupils should secure their farm exhibits now and it would be advisable for the girls to begin work on the household economic section and the boys, the manual training section.

Special prizes not included in bulletin are:

Loaf of Bread made from Vulcan Flour—1st prize, 50 lb. sack; 2nd, 25 lb. sack, donated by S. Wegh.

Leed Cake—Magic Baking Powder used—1st, 2nd, 3rd prize, can Magic Baking Powder.

Essay "The Use of Honey in the Home" accompanied by one exhibit of candy or cake or cookies—5 lb. pail of honey, S. O. Hillier, Claresholm.

To date the following contributions are: T. Eaton Co., \$5.00; Hon. O. L. McPherson, \$5.00; Henry Birks & Sons, onyx and pearl ring; F. T. Osborne, 2 service pens; Hill & Collier, Hardware merchant, Vulcan, mitt, bat and ball; J. Wolfe, \$2.50.

This fair district would appreciate donations or prizes from anyone interested. Phone 4005.

Fair to be held Community Hall, Reid Hill, September 19, 1929.

## STORE REMODELS

Messrs. F. M. Anderson & Co. have been busy rearranging their store for the convenience of their customers and for the better display of their wares. The men's section has been removed to the front of the premises, and a department for ladies' shoes has been suitably placed in the rear. Fittings have been placed to better advantage, and goods arranged so that they are easily accessible. This will be an agreeable change for the firm's old customers and will make it easier for them to serve a rapidly increasing number of new ones.

## BY-LAW WILL PROVIDE NEW FIRE EQUIPMENT

At Monday's meeting of Vulcan town council a scheme was submitted to provide a new fire equipment for the town, and a by-law to give effect to the recommendations contained therein received its first and second readings.

The necessary outlay will be \$7500 which will provide:

Fire truck with pump (250 gallons per minute).  
1500 feet 2 1/2 inch hose.  
Together with five cisterns to be placed at various points in town, viz:  
One at Imperial Hotel  
One at Imperial Hotel (the old water tower)  
One at Roy Ferguson's old barn  
One at the Skating Rink  
One near the school.

These cisterns will supply water to any part of town, and will have a capacity of 100,000 gallons. It is also proposed to lay water lines: one to corner near Theatre; one to corner near King's Road sturg. These will serve to extend the use of fire fighting apparatus and increase supply of water available for dealing with outbreaks in the business section.

The improved system will be operated by an organized brigade under a fire chief, and regular practices will be held.

Debentures will be issued to meet the cost, and these will likely amount to \$10,000 so as to allow \$2,500 for taking care of additional road improvements.

Much credit is due to Mayor Butchart who has taken a very keen interest in this project for some time, and has visited Raymond to examine a similar equipment in operation, on which visit he was accompanied by Councillors Allan and McAskie.

Installation will commence as soon as possible, and the system is as good as it is possible to procure for the amount to be expended and will supply an up-to-date equipment capable of fighting fires at full capacity for five hours. It will be a distinct addition to the desirability of Vulcan as a place of business or residence; and will no doubt reduce the insurance rates on local properties, so that, in time, it may be self-supporting.

## LOCAL ITEMS

The Black and White Service Station, whose advertisement appears in this issue, are now selling Union gasoline.

Mr. and Mrs. Wilson Cross of Nanton, spent Sunday the guests of Mr. and Mrs. F. T. Graham and family.

Mr. and Mrs. M. Hunt returned home the latter part of the week after a short holiday at Camrose.

Mrs. Bill Little of Lethbridge, spent a few days in Vulcan this week with friends.

Mr. Harvey Rogers of the Mitchell Grain Company, Winnipeg, was doing business in town last week, and was the guest of Mr. and Mrs. N. Holmes.

Mr. George Torwigger of Hollywood, California, is in Vulcan district looking after his farming interests. While here he is the guest of Mr. and Mrs. C. S. Wallace.

Mr. and Mrs. Churchill Jr. of Portland, arrived in Vulcan by motor the first of the week where they expect to spend a few days visiting the formers mother, Mrs. Geo. Churchill. They expect to take her as far as Cranbrook with them by way of the Banff-Windermere trail.

## ST. ALDHELM'S NOTICES

There will be no services in St. Aldhelm's Church on September 1st, as the Rector will be at Lomond that day. Services will recommence on September 8th.

United Church Notes

The usual morning and evening services will be resumed next Sunday, September 1st with a Flower Service in the morning at 11 o'clock, to which the boys and girls with their parents and friends are invited to attend. Dr. Charles Endicot of Winnipeg will be the speaker at the evening service at 7:30. Dr. Endicot is a most interesting and convincing speaker and the public is cordially invited to hear him on the "Great Task of the Church."

### THAT RING FENCE

One can understand it when the New York Times waxes sarcastic at Baron Beaverbrook's suggestion for "developing markets within a ring fence built around the empire." The New York Times has never taken the American ring fence very warmly. It is only being consistent when it objects to a British ring fence.

Lord Beaverbrook asks why Canada, which imports \$676,000,000 worth of manufactured goods, should not keep this wonderful market for an all-British trade. This leads "The Times" to remark that he will find the reason if he looks at the sales of Canadian products to the United States. But while Beaverbrook is looking at these sales he is also looking at the disparity in the trade between Canada and the United States and at the attempts of the United States to make that disparity in favor of itself even greater.

It may be true that Beaverbrook as "The Times" charges, is looking for a popular cry and for votes in British elections. There are many British business men who are talking of increased broader empire trade arrangements who are not looking for votes and who are not accustomed to purely popular cries.

The "Financial Post" is not prepared to forecast that Empire free trade will come in this generation. On the other hand any one who has viewed the remarkable economic developments that have taken place in the past generation throughout the world knows better than to state that such free trade is an impossible development.

In the meantime, a ring fence around the empire is not necessary to the development of British empire trade. Further preferential tariff agreements on a "something given for something received" basis are certain to be worked out in the near future and one need not give too much thought to the question of whether or not the ultimate development lies in complete free trade in the Empire.

Regina has railway communication established between that city and the Pas. The C.N.R. line of 72 miles was completed recently between Sturgis and Hudson Bay Junction.

Those three hundred British immigrants at Winnipeg who refused to work and want to return home, are misfits and will never make desirable citizens. Deport them at once.

### THE CHANGING WEST

In a current issue of the Monetary Times appears a comprehensive article on the steady expansion of industry in the three prairie provinces. The purpose of the article is to invite the people in the East to reconstruct their ideas about the West. Wheat is still a great source of revenue but no longer the only one. Mining, manufacturing, lumbering and fishing are reaching proportions deserving of national attention. The prairies are rapidly becoming a land of diversified industries as well as a country of mixed farming.

Extended reference is made to the progress of dairying and stock raising. The total value of dairy products in the three provinces in 1927 is given as \$21,687,000. he past year and a half, it is pointed out, marked the beginning of an intensive development of the mineral wealth of Manitoba, Saskatchewan and Alberta. While similar as to topography, these provinces are very different as to mineral resources. Alberta and Saskatchewan are rich in coal deposits. Alberta is famous for its oil and gas resources, Saskatchewan for its great variety of ceramic clay sand new found minerals, and Manitoba for its zinc, copper, silver and gold ores and also its unrivalled building stone.

With regard to manufacturing the Monetary Times quotes an official statement to the effect that the manufactured products in the prairie provinces last year had a value of \$327,000,000, an increase of 25 per cent over the output in 1926.

"No doubt there are many in the east who will view Western Canada as great frontier, rural and agrarian to the exclusion of other industries," concludes the writer. "For such Canadians we would prescribe a visit to Western Canada. Let him see Winnipeg, the gateway to the west; Regina, the Detroit of the future; Edmonton, Calgary or Medicine Hat, and he will come to realize that industry as well as agriculture belongs to the west."

### LITTLE BENNY'S NOTEBOOK

(By Lee Pape in Red Deer Advocate) Thursday was Nora's day off and she made liver and onions in pots, pop eating his 2nd helping as if he was thinking about his 3rd, saying, "If they have food like this in heaven, death where is thy sting?"

It does seem nice for a change, I admit, but of course a woman's life has more drawbacks and setbacks than a man has any inkling of, ma sed. For instance my pleasure is prevented from being as great as yours by the ever present fact that I half to do the dishes afterwards in lonely solitude, she sed.

Then banish the thawt, because I'm going to help you, and we'll make duty a pleasure with idle lafter and snatches of song and story, pop sed. I'm sure its very nice of you to offer, but you know, Willyum, the last time you helped me, as you express it, you dropped practically as many things as you dried, and the fact that they didn't all brake was only one of nature's mysteries, ma sed, and pop sed. Not at all, I mean what of it? What matters a few bits of broken china where there is gayety and companionship? I wouldn't think of letting you clean up all alone, and I insist on helping you, he sed.

Now Willyum, you read your paper as usual after supper and I'll get along don't you worry, ma sed, and pop sed. Nothing doing, we'll do them together, shoulder to shoulder, and if there's a slight crash now and then, we'll just regard it as incidental music. I wouldn't dream of having your supper spoiled by the thawt that you half to clean up all alone, he sed, and ma sed. Now Willyum I'm not thinking anything of the kind in fact as a matter of fact I'm rather looking forward to it with relief, she sed.

Well, if you actually assure me that it will be a pleasure for you, but not otherwise, pop sed, and ma sed. Why yes of course, don't be silly, just go ahead and read your paper.

Competition in safety airplane travelling is coming. This is much better than stunt flying.

"Duke" Schniller, piloting an airplane crashed near Lake Winterton on the Hudson Bay Ry. No one was injured.

### That there is little danger of Public School Boards having to go a-begging for teachers, says the Port Elgin Times, is emphasized by the fact that no less than 360 applications were received by the secretary of the local school board in response to an advertisement in the daily press for a teacher for the Second Book Room. This is said to be a record for this school. It is also interesting to note that about 200 of the applicants are Normal graduates who graduate this summer, which would show that hundreds or more teachers are to be thrown on the market this year to seek positions in a profession that is already overcrowded.

# The Cost of Living

is two and one-half times what it was in 1890

The price of household electricity is now one third of what it was at that time.

The average price of electricity for home use in the Dominion of Canada today is 25 per cent under pre-war prices.

The general cost of living remains at 70 per cent above pre-war costs.

The constant decrease in the cost of domestic electric service exemplifies the principle that lower costs mean increased use and greater application of electricity in the home

## The Pyramids of the Prairies

The Pyramids of Egypt were built for the glory of ruling dynasties by toiling myriads of slaves and with wealth wrung from needy tax-paying citizens. Generation after generation of desperate toil with primitive tools built these gigantic monuments, the pride of a ruling class.

The Wheat Pool farmers of Western Canada are building an infinitely more serviceable monument—a great system of elevators owned by themselves and operated for their protection and benefit. By means of an annual contribution of two cents for each bushel of wheat the Pool members of Alberta have provided over six million dollars for the construction of their elevator utilities. Bound together by the ties of co-operation, these Pool farmers are working out a plan for their own economic freedom.

The clear-sighted, far-seeing Pool member is extremely loyal to his own elevator system, realizing its value. Not only are Pool elevators operated for the Pool membership at bare cost, but they provide a strong shield to guard the welfare of the producer.

### STATION BURNED

C. P. R. Station House at Okotoks Destroyed by Fire, Friday

The C. P. R. station at Okotoks was destroyed by fire on Friday last and it was only through prompt action on the part of citizens that the blaze was confined to the station. Sparks were blown for miles by the heavy wind as the old building, that has done duty for almost thirty years, burned like paper. Res from brands carried to adjoining wheat fields and in parts of the town, were put out by fire fighters and thus the flames were localized on C.P.R. property. Calgary firemen reached the town after the blaze was under control. The fire spread so rapidly that Mr. Overland, the agent, had no time to save valuable documents in the office and all household goods and clothing belonging to his family went up in smoke. Damage was estimated roughly at \$15,000 made up largely of valuable bonded goods belonging to various oil companies in Turner Valley. Loss of buildings is said to be under \$3000. Mayor Robinson, speaking of the fire gave praise to the energetic efforts of volunteer firemen who saved the east end of Okotoks from destruction. All turned out and worked hard to prevent the spread of fire.

### PUT TO GOOD USE

Airplane Carries Directors from Edmonton to Valley Oil Field

For the purpose of inspecting their holdings in Turner Valley near the Home wells, the directors of the Alberta Superior Co. chartered an airplane and flew from Edmonton to have a look at their holding. Capt. "Wop" May was the pilot and he had no difficulty in landing on ground adjacent to Mid Royal oil wells on Sunday morning last. Pilot May bucked a head wind all the way from Edmonton, and covered the distance of 283 miles in about two hours. And thus local aviation history was made at Black Diamond and the Valley.

### GRAIN SHIPMENTS

Over a Million and a Half Bushels Shipped up Till Monday.

In three weeks of the new crop year a total of 1,615,000 bushels all grains have been marketed in the Lethbridge railway division according to figures released from the local general offices of the C.P.R. Monday morning, says the Lethbridge Herald. Of the above total 825,000 bushels comprise shipments, 675,000 being wheat and 150,000 other grains. In store at the elevator are 650,000 bushels of wheat and 1,000 bushels of coarse grain.

### EXTEND BUSINESS

Solloway Mills Company Buys Out Willis Security Company

An important announcement and of interest to our readers is the purchase of the brokerage business of Willis Securities, comprising a group of nine offices in the maritime provinces by the Solloway Mills organization. This gives the latter company a complete chain of thirty offices in every province of Canada. Solloway, Mills and Company will have at the public disposal eleven thousand miles of private wires, including direct lines to New York and Chicago, uniting the whole system into a solid organization in constant touch with all markets from coast to coast.

### NEW BANK BUILDING

Royal Bank at Valley Doing Business in New Stand

The new Royal Bank building was opened for business in the Valley on Monday morning last. The removal of books, valuable papers, forms, etc., occupied the previous day and everything was in readiness for business at the scheduled hour of opening. The fixtures in this new office are of oak finish throughout. The frontage for the public is spacious and the institution is equipped with modern conveniences. The vault is fire proof and has over eighty safety boxes for the use of customers to hold their valuable documents. At the rear of the building are three comfortable living rooms for manager Ferguson and members of the staff. An up-to-date garage 13x16 with overhead revolving door completes this modern establishment and office work can now be accomplished with promptness and efficiency.

A Scotchman went into a lavatory in Glasgow to wash his hands. Seeing the sign "Tip the Basin," he indignantly walked right out.

Palestine is the scene of grave disturbances between Arabs and Jews and many are being killed. The "Wailing Wall" is responsible for the trouble.

The Rutledge Air Service of Calgary is now making two daily trips to Turner Valley and return and for the first time in the history of Western Canada, aviation is being sold to the public through the medium of the small town newspaper.

### FATAL ACCIDENT

Reginald Thomas Killed by Swinging Tools at Calmont No. 6 Well

Struck on the head by swinging rotary tools as they were being taken from Calmont No. 6, on Wednesday of last week at 11 o'clock, Reginald Thomas, 22 years of age died early Thursday morning at the Calmont camp. Bert Nelson, another employee at the well, sustained injuries to his right leg.

An inquest was ordered by Dr. A. E. Ardiel, coroner of Okotoks.

At the time of the mishap the two men were assisting in the removal of rotary drills from the well. Thomas struck on the head by one of these tools when it swung round out of control, causing severe injuries to the skull. He was immediately given medical attention at the Calmont camp by Dr. R. Hall of Royalite, and Dr. James Kenny of Calmont, but did not rally from his condition. Nelson was also attended at the same time.

Thomas is known to have come from Vancouver during the summer, but little else is known about him.

### BLACK DIAMOND

Are you a subscriber to this paper? Only \$2. per year.

The fishing job for lost tools at Foothills No. 2 is over and the well was on production test at a depth of 4710 feet on Saturday last.

The Montana Oil Journal says Montana oil men in numbers expect to attend the oil convention at Calgary next month upon which occasion the word "hospitality" will be given a new colorful meaning. The entertainment will consist of a well balanced convention program, trips to the famous Turner Valley field, golfing, banquet and other events.

Arrangements are now in progress for the transportation from Alaska to the eastern delta of the Mackenzie River of a herd of 3,000 reindeer, and it is expected that the drive will begin some time in October. Over a year will be required to herd this great number of animals across the northern strip of the Arctic. This is part of the Canadian Government's scheme to establish the raising of reindeer as an industry in this region.

### WORLD'S ARGEST

Canadian Wheat A. A. Largest Co-operative Organization

With the recent completion of nearly 500 grain elevators at country market points in western Canada, the Canadian Wheat Pool, the world's largest farmers' co-operative market organization, now owns and operates a total of 1,417 such elevators with a combined capacity of 52,560,000 bushels. In addition the Pool has twelve terminal elevators located at Fort William, Port Arthur, Vancouver, Prince Rupert, Buffalo and Winnipeg, with a total capacity of 33,606,000 bushels, or an aggregate capacity for all pool elevators of 86,166,000 bushels. The pool elevators could, therefore, at one time hold about one-fifth of the normal wheat production of western Canada.

### INTERESTING NEWS

Alberta Leads in Highway Building. Great Danger is Loose Gravel

Alberta clearly leads its sister province of British Columbia in highway building, in the opinion of J. W. Glenwright, vice-president of the Edmonton branch of the Alberta Motor Association. He recently returned from a tour of the southern districts of the two provinces and found that the coast province was certainly lagging behind when it came to road building. On this trip Mr. Glenwright travelled by way of the Crow's Nest Pass, returning over the Windermere highway. He found the roads in southern Alberta were absolutely first-class, and regretted that British Columbia, at least the sections he drove over, was far behind in that respect.

"In southern British Columbia the roads had not been properly built, as they were narrow and dangerous and apparently little attention had been given to proper maintenance," said Mr. Glenwright. "There were deep ruts, especially between Cranbrook and Kuskanook, at which point one takes the boat for Nelson."

"On our Alberta roads the great danger is loose gravel. From Red Deer to Edmonton it did not appear that the road was being properly maintained, as there were some bad holes encountered. It is apparent that a policy of continuous maintenance must be adopted to give the service demanded by the auto traffic of today."

The latest available estimate places Canada's forest resources at 224,304 million cubic feet of standing timber which is capable of yielding 424,637 million feet board measure of sawn lumber and 1,121,993 thousand cords of pulpwood, ties, poles and other smaller materials. With the population of the Dominion estimated at 9,519,000 in 1927 this represents a per capita supply of 23,564 cubic feet of standing timber to provide an annual per capita consumption for use alone of over 269 cubic feet.

friends afflicted with hay  
fever:  
Sneeze on Monday—  
you'll kiss a stranger;  
Sneeze on Tuesday—  
you sneeze for danger;  
Sneeze on Wednesday—  
you'll receive a letter;  
Sneeze on Thursday—  
you'll sneeze for better;  
Sneeze on Friday—  
you'll sneeze for sorrow;  
Sneeze on Saturday—  
you'll see your sweetie  
tomorrow;  
Sneeze on Sunday—  
your safety seek, for  
bad luck you'll have all  
the rest of the week.

Ordinary mason jars,  
arranged on a shelf on  
the barn or tool house  
make splendid containers  
for small parts, nails, etc.

## STEER CLEAR

"George, dear, don't  
come over for a few days,  
at least. My father stren-  
uously objects to you,"  
said golden haired Gladys.

"On what ground does  
he object to me, I want to  
know," returned the in-  
dignant boy.

"Well on most any part  
of our quarter-section!"

You know that auto-  
mobiles were never really  
successful until they got  
away from the plain bear-  
ings, such as were used

in the old buggy wheels  
and adopted ball bearings,  
which would stand the  
higher speeds and harder  
service. Trouble with high  
grade ball bearings is

practically negligible, so  
that they are far cheaper  
in the long run, though  
they cost more in the  
first place. That's why Mc-

Cornick-Deering Tractors  
have them on their big  
crankshafts—they last for  
years with no adjustment  
or attention whatever.

There is sufficient faith  
in the world to move  
mountains, but there are  
always doubters on hand  
to think dynamite is a  
more effective force.

Farmers like the Inter-  
national Six-Speed Special  
Truck because of its spec-  
ial ability to haul heavy  
loads of wheat out of soft  
fields and over hilly roads

and then step out high  
and handsome on the  
straightaway. Four wheel  
brakes for safety.

Opie Reid was visiting  
Death Valley at one time  
and was very much im-  
pressed to know that he

was actually below sea-  
level. Approaching a  
native, he asked: "Say,  
stranger, what altitude is  
this?"

"Altitude—? Here—?  
Hell man, we ain't got  
none!"

J. T. WILLARD  
Farm Implements

## HON FRANK OLIVER

Has Very Interesting Reminiscences  
of His Early Pioneering Days

Hon Frank Oliver, as one of our  
Alberta pioneers, has interesting re-  
miniscences. Speaking before an  
eastern audience recently he told his  
audience that when he first went to  
Edmonton in 1876 "wheat flour was a  
luxury, not a necessity, and sold at  
\$15 to \$25 per 96-pound sack when  
there was any for sale, which was only  
at intervals. Police horses at Fort  
Saskatchewan were fed on oats grown  
at Sun River, Montana, freighted  
across country by strong teams of  
mules, horses or oxen and Red River  
carts to Edmonton. The first night I  
slept in a house in this district," he  
recalled, "the owner and his wife sat  
down to a dinner of boiled muskrats  
and 'lady finger' (small) potatoes and  
were specially fortunate in having the  
potatoes. The staple food of the coun-  
try was buffalo meat and white fish.  
The nearest railroad was in the State  
of Minnesota, far beyond Winnipeg.  
Mail came once in three weeks and  
took three weeks on the way from  
Winnipeg."

Mr. Oliver told of the bitter disap-  
pointment which came to Edmonton in  
1881, when the route of a projected  
railway was so altered as to leave the  
Edmonton settlements 200 miles off  
the line. It was not, indeed, until 1905  
that the Canadian Northern reached  
Edmonton on the direct route from  
Winnipeg. All those years it was a  
case of hope deferred, with, as Mr.  
Oliver put it, "the rebellion of 1885  
thrown in for good measure."

But in those years of pioneering,  
the West found itself. It was realized  
that oats, instead of having to be  
imported, could be grown in the Ed-  
monton district "more bursels to the  
acre and more pounds to the bushel  
than anywhere else in the world. It  
was discovered not only that Edmon-  
ton was well within the wheat belt,  
but that wheat could be commercially  
grown hundreds of miles to the north-  
wards and westward."

Mr. Oliver was present, not, indeed  
at the birth of a nation, but at the  
birth of a national grain.

## LIFE'S TOOLS

All Children Should Undergo Physical  
Examination

When a carpenter goes out to build  
a house, he first examines his tools to  
see that they are in perfect condition.  
A good workman will not work with  
damaged tools, nor with an essential  
tool missing. The finished result  
would be imperfect. He would not  
have his name associated with such.

Are parents as careful as the good  
workman? So many small children  
are to begin next month to build the  
foundation for the future structure of  
their lives. Are their tools in perfect  
working order? Eyes and ears, heart  
and lungs—in fact, the whole struc-  
ture that makes up the little body.

Unless they are in perfect working  
condition, the child starts with a  
handicap that nothing in later life can  
overcome. The structure that he  
builds will be imperfect, and he is not  
responsible—his parents are.

No child should start school with-  
out a complete physical examination,  
without having defects, if any, reme-  
died, without being in perfect work-  
ing condition. That is his birthright.  
Literature on the care of children  
can be had from the Canadian Red  
Cross Society, 407 Civic Block, Ed-  
monton, Alberta.

## EXIT THE ROCKER

The rocking chair has had its day,  
and a good long day it was. But there  
is not speed enough in a rocking chair  
for this generation. Who, in this  
day, would think of sitting down and  
rocking a child to sleep? Aside from  
a bad habit, it might create, it is so  
much easier to put a baby in a basket  
and throw the basket into the car. It  
serves two purposes. The parents  
don't have to stay at home for one  
thing, and for another, the wind keeps  
the baby's eyes closed and the noise  
drowns the cries. Killing two birds  
with one stone, as it were, besides  
toughening the child's constitution, if  
it doesn't kill it.

Or how many old people today  
have time to sit in a rocking chair and  
move slowly to and fro. No, sir!  
They have to hustle to pay the instal-  
ments on the car, or hustle to get the  
chores done before bed time. It isn't  
their own vanishing youth that gives  
them thought, but the youth of today  
who vanish with or without an ex-  
cuse of any kind.

And statesmen don't settle the af-  
fairs of the nation in rocking chairs.  
They rock in private cars, and prob-  
lems are so much more easily settled  
with a cheque book than by giving  
them deep thought.

And what romance is there in a  
rocking chair for the youth of today?  
It takes a one-handed driver of an  
open car travelling at 60 miles an  
hour to breed romance in present day  
youth. The greater the speed, the  
greater the romance.

No, the rocking chair may have  
played a very important part in his-  
tory, in statecraft, in domestic rela-  
tions and in the up bringing of youth  
but it has no chance today. Just look  
into the display windows of the modern  
furniture store, and see if the  
rocking chair has not passed away in-  
to the limbo of forgotten things.—Sea  
forth Expositor.

## IN RINGING TONES

British Unemployment Audience at  
St. John Where Govt. Stalls

"Some people think I came here to  
solve the British unemployment by  
dumping labor into Canada. They  
don't know me. I realize as well as  
you do that your country can not be  
exploited. I endorse your policy ab-  
solutely."

"I'll tell you now," he stated, "that  
of all the proposals I have made,  
there isn't one that will cost you a  
dollar. I ask no favors. All my pro-  
posals are to ask that those of you  
who need it be given a chance to hold  
up their heads. It is easy for politi-  
cians to come here and tell you how  
good you are. From constant repeti-  
tion you begin to believe that you are  
the only pebble on the beach. But I'd  
like to point out that for every pound  
you spend with us, you spend five  
pounds with other people."

"I want you to substitute work for  
charity and give my people, who are  
walking the streets from day to day  
in search of employment, a chance to  
live. I don't ask you to buy anything  
from us that you can produce your-  
selves, but I do plead for a chance for  
those who are in sore straits in the  
Old Country." The British minister,  
in one of the most fiery and im-  
passioned speeches ever heard here, stat-  
ed definitely and absolutely that he  
had no intention of dumping British  
labor in Canada.

## PREVENT TROUBLE

Safeguard Your Future Health With  
Medical Examination

The great importance of safeguard-  
ing one's future health and happiness  
by regular medical examination, giv-  
ing the attention of the average per-  
son.

It is only by periodic health exam-  
inations that the physician may have  
full opportunity.

(a) To observe the development of  
the individual.

(b) To detect the earliest signs of  
change from the normal and of im-  
pending disease.

(c) To observe the effects of a hy-  
gienic daily regime.

(d) To note abnormal conditions  
arising from neglect of the laws of  
health.

(e) To recognize the benefit of fol-  
lowing advice given to correct these  
abnormal conditions.

(f) To detect the early signs of  
focal infections and the results of  
their persistence.

(g) To accumulate facts regard-  
ing early symptoms of disease and  
treatment.

(h) To investigate the possibili-  
ties of cure in cancer, tuberculosis,  
venereal disease, etc.

(i) To study the importance of hy-  
gienic and dietetic treatment in gen-  
eral.

## MUST KEEP AT IT

Persistent Advertising Necessary.  
The Public Soon Forgets

To the business man who thinks  
the public does not need to be con-  
stantly reminded of who he is and  
what he has to sell, the often told  
story of Pyle's Pearlina will bear re-  
peating.

In 1904 Pearlina, a cleaning ma-  
terial, was used by a large percentage  
of the housewives of the country, and  
the company spent \$500,000 in adver-  
tising that year. Later the advertis-  
ing was curtailed, and about 1907 it  
was discontinued altogether, as the  
company thought the product was so  
well known that it did not require  
further advertising.

Sales fell off rapidly, but the own-  
ers persisted in their non-advertising  
policy until 1915, when the whole con-  
cern, including good will, was sold  
for \$12,000. Pearlina was dead.

Many other products whose names  
were household words a few years  
ago are not heard of today because  
they failed to keep up their advertis-  
ing and consequently the public for-  
got them.

Business men must remember that  
new generations are coming along all  
the time, and these new buyers must  
be personally sold on a product or a  
store, as their fathers and mothers  
were sold before them. The only time  
it is safe to stop advertising is when  
one is ready to go out of business.

## BAD FOREST FIRE

Destroyed a Large Area of Timber  
and Shrub Land. Heavy Losses

Flying over the forest fire area on  
Friday last in a plane of the Rutledge  
Air Service, W. J. Oliver, Calgary  
Herald staff photographer, secured  
aerial photographs of a portion of  
the devastated area. A heavy gale  
was blowing and the situation looked  
very serious. As a result of heavy  
smoke visibility was poor but some  
clear snaps were taken. There were  
130 fire fighters on the job and thirty  
more were added on Saturday. The  
pathway of the fire led between Pri-  
dis and Kew and the main seat of  
flames was then located between Vol-  
lario Ridge and Ware Creek. An at-  
tempt was made to back-fire near  
Ware Creek. Every possible device is  
being employed to check the fire and  
with 200 men on the job it is hoped  
they will control the fire.

## LOCAL NEWS ITEMS

Mrs. Beulah Campbell had as her  
guest last week, Miss Paulsen of  
Clareholm.

Miss Joyce Robson of Calgary, is  
spending a few days in town with  
Miss Marjorie Schenck.

with their three sons and their fami-  
lies. They also had with them their  
cousin, Mr. Stanley Howes of Cam-  
rose, Alta.

## WILL CUT DISTANCE

The Hudson Bay Railway is rapid-  
ly nearing completion to its terminus  
on Hudson bay. The total expendi-  
tures amounted at the end of 1928,  
to \$23,817,455. Only a few miles of  
rails remain to be laid to complete  
the line to Fort Churchill. When com-  
pleted the long discussed project will  
provide Western Canada with an ad-  
ditional outlet to the ports and mar-  
kets of the world. New lines of steam-  
ers, adapted up to the northern  
routes, will no doubt soon follow,  
thus bringing the British Isles and  
Europe several hundred miles nearer  
to the prairie provinces.

The experiments looking towards a  
variety of wheat which will be "real  
wheat" and at the same time have  
complete rust-resisting qualities are  
being continued, said Dr. J. H. Gris-  
dale, Deputy Minister of Agriculture,  
and results are being confidently hop-  
ed for. While there are a number of  
rust-resisting varieties, certain diffi-  
culties have stood in the way of their  
development generally, he said. At  
present these varieties are being ex-  
perimented upon.

Texaco Petroleum Products

## HARD CARBON?

It doesn't form with TEXACO  
Surprising as it may seem,  
TEXACO Golden Motor Oil  
does not form hard carbon in  
your engine.  
Unlike many dark oils, this clean,  
clear, golden lubricant is abso-  
lutely free of all hard, carbon-  
forming residues. That is what  
gives TEXACO its clear, dis-  
tinctive color—GOLDEN.  
Change to TEXACO Golden  
Motor Oil. In the hottest weather  
your motor will run sweetly and  
perfectly, for the full, viscous  
body of TEXACO stands up  
under the hardest driving strain.

Standard Priced—  
but BETTER  
than Standard

Fill up with the new  
and better TEXACO  
Gasoline. Pay the ser-  
vice station the stan-  
dard price per gallon.  
You will travel farther  
before you need another  
filling, even if you have  
been paying several  
extra cents for every  
gallon.

The new and better  
TEXACO is a "high  
test" fuel. Because it  
vaporizes readily it  
starts instantly, gives  
you "snappy" accelera-  
tion, and full mileage.  
Besides, it reduces dan-  
ger of oil dilution.

### KIRKCALDY NEWS

Mr. A. J. Maisey spent Monday in  
Calgary.

Mrs. Vanderberg of Claresholm has  
been visiting the past week with  
her parents Mr. and Mrs. Henry Snyder.

A miscellaneous shower was given  
at the home of Mrs. W. Saunders by  
the community in honor of Mrs. My-  
rtle Johnston (nee) Mable Laine, on  
Wednesday, August 28th. Many beau-  
tiful and useful gifts were received.  
The pleasant afternoon was enjoyed  
by all.

Mr. and Mrs. A. J. Maisey motored  
to Cayley on Sunday to visit with  
friends, Mr. and Mrs. Sprunt.

The Kirkcaldy W. L. met at the com-  
munity hall on Thursday, August 22  
for their regular meeting. After a  
short business session, Mrs. D. H. Gal-  
braith gave a very interesting paper  
on "The Treaty of the League of Na-  
tions" which was enjoyed by all, after  
which the rug made by two of our  
members, was raffled off. Ticket No.  
34 won the rug, Mrs. H. Selland of  
Champion, being the lucky winner.  
The next meeting will be held at the  
home of Mrs. E. Laine.

Mr. John Olsen and daughters motored  
to Lethbridge on Sunday and  
report Mrs. Olsen improving as well  
as can be expected.

Mr. Theron Vaughn is spending a  
few days up in Calgary with relatives.

### ENSIGN NEWS

Mr. Richard Williams from Calgary  
is spending a few weeks with his cou-  
sins, the Williams Brothers.

Mr. and Mrs. Raymond Parker ac-  
companied by Mr. Frank Nelson, left  
by auto Monday for Seattle.

Mr. and Mrs. E. Loxton and daugh-  
ter from Claresholm, spent Sunday  
visiting at the home of her sister,  
Mrs. L. Jackson.

The Ladies' Aid meeting will be  
held at the home of Mrs. L. Finlayson  
Wednesday, September 4th at 2.30.  
All ladies invited.

Mr. and Mrs. P. L. Bourque and  
children motored to Staveland, Sunday.  
Mr. and Mrs. L. E. Elston returned  
home after spending a few days at  
Waterton Lakes.

Church services held every Sunday  
afternoon at school house. Sunday  
school conducted by Mrs. A. Smith at  
2.30 p.m. Preaching at 3 p.m. by the  
Rev. J. J. Farquhar. Everybody wel-  
come.

Mr. Paulus Driges with Mr. Sid  
Ross, Mrs. Ernest Loxton, Mrs. L.  
Jackson and Netta, spent a few days  
at Lacombe visiting with their father  
Mr. A. Driges returning home by Gull  
Lake where they had an enjoyable  
trip last week.

Mrs. H. Brown and Mrs. W. Brown  
have had as their guests their sister-  
in-law and her husband, Mr. and Mrs.  
Hugh McKay and children who have  
been staying with them for a few  
weeks and who left on Saturday for  
Medicine Hat.

The Catholic Women's League held  
their regular meeting at the home of  
Mrs. L. E. Elston, Thursday after-  
noon. The president, Mrs. H. Brown,  
opened the meeting with prayer. The  
roll call and minutes were read by  
the secretary, Mrs. S. Eckle. Arrange-  
ments were made for the display of  
the Hope Chest for the first month to  
be at Blackie and the last month at En-  
sign. Discussions on the banquet  
which will take place in Brant Novem-  
ber 9th. Meeting brought to a close,  
refreshments being served by Mrs. H.  
Brown and Mrs. B. Beauchamp.

A miscellaneous shower was given  
at the home of Mrs. H. Parker, in  
honor of Mrs. Mick and Robert  
Parker in honor of Mrs. Raymond  
Parker (nee) Miss Francois Hilber of  
Fargo, North Dakota. Many beauti-  
ful and useful gifts were received by  
the bride. A lovely lunch was served  
by Mrs. Harold, Mrs. Mick and Rob-  
ert Parker. The following guests in-  
cluded Mrs. Dale, Dean Campbell,  
Miss Elizabeth Brims, Mrs. E. Harris,  
Mrs. L. Jackson, Mrs. N. P. Larson,  
Mrs. W. Mullens, Miss Margaret Pat-  
ton, Mrs. W. B. Parker, Mrs. R. Park-  
er, Mrs. G. W. Parker, Mrs. H. Park-  
er, Mrs. A. Smith, Mrs. E. E. South-  
gate, Miss T. Williams. Good wishes  
were given to Mr. and Mrs. Parker  
who leave shortly for Seattle.

### ATTENDS RADIO CONVENTION

Mr. S. Stukey was in Calgary last  
Wednesday attending the Radio Deal-  
ers' convention held under the aus-  
pices of H. G. Love and Company, Al-  
berta Distributors for Westinghouse  
Radio products.

The convention was held in the Pal-  
liser Hotel and was largely attended.  
Mr. O. B. Holden, sales manager, acted  
as chairman.

The session opened promptly at 10  
a.m., the address of welcome being  
given by Mr. H. G. Love. Mr. Love  
also gave a short address on Distri-  
butors' Co-operation and assured the  
dealers that his Company would al-  
ways endeavor to co-operate with the  
dealers by carrying a sufficient stock  
at Calgary and would assist them at  
all times in merchandising and sales  
plans.

There were three representatives  
from The Canadian Westinghouse  
Company at Hamilton, also Mr. H. J.  
McEwen, manager of the local branch  
of the Canadian Westinghouse Com-  
pany; Mr. Emil Loos, asst. manager  
of sales, who spoke on "Westinghouse  
in Radio"; Mr. Russell T. Kelley, ad-  
dressed the convention on Merchand-  
ising and Advertising; and Mr. Clif-  
ford Underwood, a radio engineer, ex-  
plained the 1929 Westinghouse sets.  
Mr. McEwen also spoke, addressing  
a few words of welcome to the dealers  
in attendance.

The line this year includes twelve  
models of both batteryless and bat-  
tery operated sets, having many new  
and outstanding improvements, which  
will be exclusive to Westinghouse.

Miss Lenore McLaughlin has been  
the guest of Miss Dorothy Mower of  
Barons for the past week.

### COMMUNICATIONS

The following letter has been received  
by Mr. C. B. Shimp, director of Harland  
Petroleum Limited, from Mr. A. P. Har-  
land, manager of the Harland Agencies,  
Calgary.

C. B. Shimp, Esq.  
Vulcan, Alberta.

Dear Sir,  
We wish to inform you that the writer  
returned from Winnipeg yesterday after  
having completed selling arrangements  
with a Winnipeg firm who have con-  
tracted to sell from One Hundred Thousand  
to Two Hundred Thousand Shares with on-  
ly a very small stock bonus. This firm  
intends to commence a selling campaign  
on or before September 15, 1929. In view  
of having entered this contract it will be  
necessary for us to cut down on the stock  
bonus to two shares of Escrow Stock with  
each share of Treasury Stock purchased  
at \$1.00 and possibly cut down to One  
Share bonus. However we will give you  
an opportunity to get all your remittances  
for stock applied for, also to secure the  
applications of any prospects you have on  
the old basis of One and Three before  
cutting down to One and Two, on which  
basis you have a certain allotment.

We feel that the connection we have  
recently made in Winnipeg will prove to  
be very satisfactory as the president of  
the Company whom we have made this  
connection with is a brother of Isaac Pit-  
blado, K.C., one of the most prominent  
lawyers in the City of Winnipeg, Man.

Mr. Pitblado, the president of the Min-  
ing Securities Company Limited (the firm  
we have made connections with) informed  
the writer and Mr. Noble that he had se-  
lected our Company from twenty or thirty  
other companies with whom he had been  
negotiating regarding the selling of stock.  
The reasons he selected our company are  
because the promoters have not taken out  
an exorbitant amount of stock for leases  
and promotion purposes and also on ac-  
count of the extensive diversified holdings  
of the Company. We were very pleased  
at his assertions in this connection and  
therefore you feel assured that we are go-  
ing to meet with good success in this  
Company in due course although we are  
possibly not progressing as fast as we  
first anticipated. We intend to get busy  
on getting out a prospectus of the Com-  
pany and also attend to the issuing of the  
stock certificates as soon as possible.  
However you will realize that there is a  
considerable amount of work in connection  
with getting out the prospectus and  
stock certificates, which cannot be rushed.  
We were pleased to learn that you have  
been turning in several lots of applica-  
tions for stock during the writer's absence  
and that you have also submitted several  
lists of applicants whom you desire us to  
reserve stock for, which has been done.  
However it will be necessary for us to ask  
you to secure the remittance for these al-  
lotments within the next ten days if at  
all possible.

We trust that you have been getting  
good service from this office as we are  
sure you have been getting during the  
writer's absence.  
It is quite possible that the writer may  
be making a trip to Arrowwood within a  
few days and if so will call upon you and  
discuss matters with you.

Yours very truly,  
HARLAND AGENCIES,  
Per Alfred P. Harland, Mgr.

### WOMEN'S CONFERENCE

(Continued from Front Page)  
Peterson, Vulcan.

Immigration—Mrs. L. Atkinson,  
Barons.  
Canadianization—Mrs. Ferguson,  
Ensign.

Agriculture—Mrs. W. H. Miller, Car-  
mangay.  
Canadian Industries—Mrs. Bell Brant

The resolution committee next pre-  
sented the following resolutions in  
shortened form: (1) "Whereas Section  
2 and 3 regarding the election of offi-  
cers for the constituency, also (a) in  
duties of officers are obsolete, there-  
fore, be it resolved that these be de-  
leted and the following incorporated in  
the constitution: The secretary-  
treasurer shall be appointed by the  
Constituency Convenor."

(2) "That whereas raffling or  
games of chance are illegal, therefore  
be it resolved that the W. I. do not  
approve of the same in connection  
with their organization."

Mrs. Peterson then came to the plat-  
form and in a few well chosen words  
presented Mrs. Martin, Convenor,  
with a beautiful pecket with amber  
drop on behalf of the ladies of the  
Conference for her faithful and untir-  
ing efforts, also Mrs. Aleck  
with a box of chocolates for her pleas-  
ing efforts.

Mrs. Reubier, president of the  
Champion branch extended an invita-  
tion to the conference to meet in  
Champion in 1930 which was gladly  
accepted.

Mrs. Martin extended a hearty vote  
of thanks to all who helped to make  
the 1929 conference such a success.

The conference then adjourned to  
meet in Champion in 1930.  
The delegates and visitors were  
then entertained to a very dainty  
lunch before leaving for their several  
homes.

Mrs. Emery and daughter Gladys,  
spent the week end at Drumheller.
